February 15, 2007

Chairman Kevin Martin FCC  
445 12th Street SW Room 8B-201  
Washington, DC 20554

Dear Mr. Martin,

For those of us in public safety, it is imperative that there be fast and reliable communications between those of us who are often called upon to respond to emergencies. The Internet is a way for us to promote and maintain public safety. For example, the Internet could allow us to effectively communicate in a crisis situation at a command post.

With this and other public safety issues in mind, I am writing to you to endorse and offer my comments on a plan being presented by M2Z Networks. M2Z Networks has pledged to make a communications system available to all federal, state and municipal public safety organizations through its wireless broadband data network.

With benefits such as these such a plan needs to be approved and I respectfully request that your commission strongly voices its approval. If you would like to discuss this matter with me, please feel free to contact me.

Dan Maniff  
  
Chief Inspector  
Office of Fire Prevention

CC: Senator Edward Kennedy  
Senator John Kerry
